Building relationships between LAs and Home Educators.

MASSIVE NEWS

We have just concluded some of the biggest research into home education ever seen.

The research and review, included FOI's, a survey as well as casework information. It provides a unique insight into how LAs behave and are perceived. As well as why people home educate, the support they do or don't want, and much more.

We hope you will take the time to read it, share it with relevant LA staff, include it in your policy making discussions and use it to inform your interactions with home educators.

We want to work with LAs not against them, and we hope this research, survey, data analysis and review will aid that relationship.

As always we are happy to answer any questions. Or have a chat, one of our team will be more than happy to do that.
